Andy Weber

Overview

Andy Weber is the Developer who provides a union of well-informed business strategy with efficient and elegant implementation, through his dedication, technical mastery, and high production standards.

Positions

Peopledesign
Senior Developer
2006-present

Weather Collage
Founder & Technical Director
2010-present

Experience

Peopledesign

Senior Developer planning and implementing brand management and research application. Established internal workflow systems to gain high level company overview. My focus is on the people using the technical solution at hand, my dedication is on the quality of the craftsmanship.

2006-Present

MomentumMI Special Guest

Invited to this exclusive Michigan-based business seed accelerator program. Absorbed lean technology startup methodology, and initiated product development.

Summer 2011

5x5 Night Winner

5 presenters, 5 ideas, 5 minutes each, 5 slides, 5 judges, and the opportunity to win up to $5,000. Weather Collage was the first idea to win the entire $5,000.
